## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of claims 57-67 in the reply filed on 4/27/04 is acknowledged.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 65-67 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for lacking method steps.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 57,59,63-67, are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,340,747 (Eden).

The Eden patent discloses a microbiological testing apparatus (10) comprising a carousel assembly (14) which is adapted to mount a plurality of test panels (11) each having a plurality of wells; an enclosure (28) surrounding the carousel assembly for preventing intrusions of ambient light (see col.5, lines 60-65) and having a door (30); a drive assembly (16); and a temperature controller, which inherently include a heating

mechanism, (see col. 5, lines 65 thru col. 6, lines 1-5). The device further includes controlling electronics, which would inherently include a microprocessor, (see col. 6, lines 1-5).

***Allowable Subject Matter***

5. Claims 60-62, are allowable over the prior art of record.

Claim 58 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Information Disclosure Statement***

6. The PCT document cited by applicant but not considered could not be retrieved due to what appears to be an incorrect document number.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Warden can be reached on 571-272-1281. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
